

**FOR IMMEDIATE RELEASE:**

**AMS expands its Facility Management division with hire of new CAFM Director**

March 8, 2007 – Fairfield, NJ – AMS, a leading CAD and CAFM software consulting firm, announces the hiring of Bill Jordon as CAFM Director. This represents a pivotal addition to AMS CAFM Solutions, the AMS division that provides integrated workplace management solutions to the Facility Management industry, and will support their strategic growth in the FM and AEC markets.

In his new role, Bill will be responsible for pre and post sales support of CAFM (Computer Aided Facility Management) systems for AMS' clients base of pharmaceuticals, technology, government and other global corporations. As Director of AMS CAFM Solutions, Bill will also oversee project management, consulting and implementation of CAFM technology for AMS' diverse client base. In addition to growing the division's staffing and project volume, Bill will expand AMS' implementation and support coverage into the New England area.

Prior to joining AMS, Bill was the Executive Vice President of FM Innovations, the facility management division of Tecton Architects, PC in Hartford, CT, where he was responsible for the group's vision, development, growth and operations. Bill has held management positions at a national Steelcase dealership, a global insurance company and with Autodesk resellers. He is a member of the International Facilities Management Association (IFMA), the Construction Institute (CI), and the Autodesk Users Group International (AUGI).

"We welcome Bill to the AMS team and are excited to leverage his deep industry experience and successes to grow our CAFM division. With over 25 years of experience in the integration of computer technology and architecture and facility management and 100,000,000 total square feet of space managed utilizing CAFM products, Bill will be a tremendous asset to AMS – and to our current and future clients", stated Brad Whittemore, President of AMS.

**About AMS CAFM Solutions**

AMS CAFM Solutions is an award winning software consulting firm that helps its clients maximize their CAFM investments and significantly improve facilities processes. AMS has implemented highly successful CAFM installations for Fortune 500 companies and other large organizations with complex workplace management requirements, including Cendant, Computer Associates, MITRE, Novartis, Ciba Vision, Berlex and Wyeth.

AMS' productivity-boosting services include targeted software customization, move management and facility maintenance process configuration, linking FM data with multiple enterprise systems, advanced reporting, financial allocations, asset management, on-site field verification and facility management staffing.
